Medical coverage & plan options

Dental
Dental benefit offerings

Vision
Vision benefit offerings

Prescriptions
Complete breakdown of all prescription plans and benefits

Wellness
Grant easy access to health and wellness tips

BenefitsApp Additional Features:

Digital Signature

Any documents you need to be signed by employees, such as acknowledging return to work policies after Covid-19, open enrollment documents or HR compliance documents, can be signed with a touch of their finger, right in the App.

Push & In App Messages

BenefitsApp offers powerful push and in-app messaging. It enables human resource professionals with a direct channel to the employee's smartphone for company-wide and even segmented alerts by region and types of employees.

What BenefitsApp Can Do For You!

Employer Benefits:

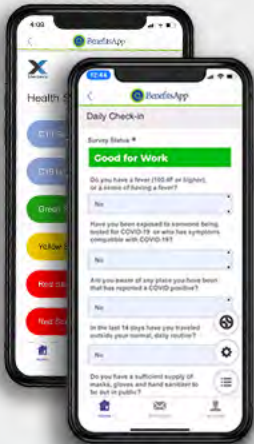

- Fully customizable mobile experience that drives employee engagement.
- Reduces HR benefit questions and employee frustration while improving employee retention.
- Saves HR managers time so they can focus on developing talent, leading change, and solving real business problems.

Broker Benefits:

- Personalized benefit information available to eligible employees with an easy to use, HIPAA compliant mobile app platform in a matter of days.
- Offers a competitive advantage in obtaining new business.
- Less labor intensive open-enrollment process and cost of ownership is extremely low.
- Greater client/agent communication and greater employee/account management support.

Add BenefitsApp's Covid Toolkit & Utilize Digital ID and Vaccination Cards

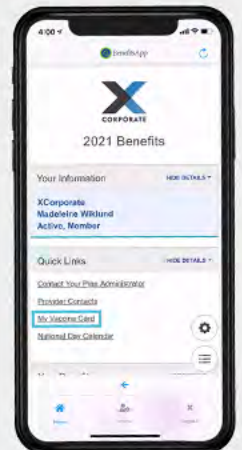

COVID-19 Toolkit

BenefitsApp offers a routine check-in feature where each day, employees submit a CDC defined survey indicating they are good for work, should monitor symptoms, or stay home and call their physician.

My ID Cards & Vaccination Card

Employees can upload digital copies of their medical insurance ID cards & vaccination cards to BenefitsApp in the "My ID Cards" & "My Vaccine Card" section under Quick Links for easy mobile access.
