Benecurv Additional Features:

Digital Signature

Any documents you need to be signed by employees, such as acknowledging work policies, open enrollment documents or HR compliance documents, can be signed with a touch of their finger, right in the App.

Push & In App Messages

The Benecurv app offers powerful push and in-app messaging. It enables human resource professionals with a direct channel to the employee's smartphone for company-wide and even segmented alerts by region and types of employees.
