prescription plans and benefits

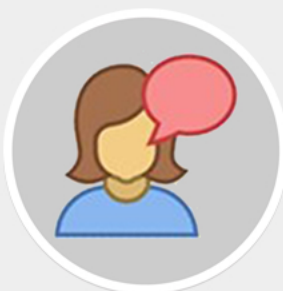

Wellness
Grant easy access to
health and wellness tips

BenefitsApp Innovative Features:

AskNancy

AskNancy is an Chat-GPT AI-powered Virtual HR Assistant. AskNancy gathers information from your benefits materials, employee handbook and other resources. She's available 24 hours a day to interactively answers employee questions. AskNancy may be trained to answer common questions saving your HR Staff time.

Push & In App Messages

BenefitsApp offers powerful push and in-app messaging. It enables human resource professionals with a direct channel to the employee's smartphone for company-wide and even segmented alerts by region and types of employees.

What BenefitsApp Can Do For You!

Employer Benefits:

- Fully customizable mobile experience that drives employee engagement.
- Reduces HR benefit questions and employee frustration while improving employee retention.
- Saves HR managers time so they can focus on developing talent, leading change, and solving real business problems.

Employee Benefits:

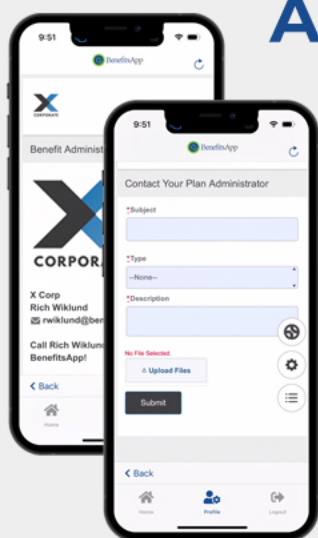

- Benefit information with enrollment, medical, dental, vision, wellness and more at your fingertips.
- Share the app with family members.
- Quick and simple access to your family ID cards.
- All contact and provider information in one place.

Additional BenefitsApp Features:

Contact Plan Administrator & ID Card Options

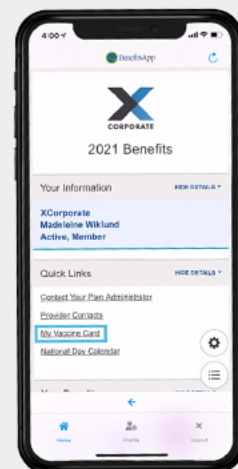

Contact Plan Administrator

BenefitsApp offers a direct line of contact from employees to their benefit plan administrator. This cuts out the HR Manager being the middleman for benefits questions and allows employees quick and direct access to their broker.

My ID Cards & Digital ID Cards

Employees can upload digital copies of their medical insurance ID cards to BenefitsApp in the "My ID Cards", or ID Cards can be digitally rendered in the app based on their individual benefit elections.
